ORDER OF RULEMAKING

By the authority vested in the director of the Department of Agriculture under section 323.020, RSMo 2000, the director amends a rule as follows:

2 CSR 90-10.012 Registration—Training is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on January 2, 2002 (27 MoReg 7-8). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS:

COMMENT: Bergquist, Inc. submitted comments stating; "your decision to identify the National Propane Gas Association's CETP as the state standard for employee training and certification will have a long lasting and beneficial effect on the safety record of the LP-Gas industry in Missouri" and "the CETP program is nationally recognized as the industry's premier training program and has been identified as the primary training tool in 33 states. Bergquist has been a supporter of the CETP since its inception."

COMMENT: The Missouri Propane Gas Association submitted a comment stating "there will be costs of compliance. MPGA had pushed for a five-year interval, which would have been offset by

more intensive, two day CTEP training, as a way to mitigate these costs. However, the three-year interval proscribed by the 2001 edition of NFPA 58 makes it unwise, in our estimation, to continue to seek a longer term. No one spoke against the three-year interval at our recent board meeting; therefore, MPGA does not object to this new provision." "We applaud your decision to identify CTEP as the state standard."

The association also commented; "the fiscal note for industry training cost reflects approximately 3,200 industry employees. However, the true additional cost, necessitated by the three-year interval rather than the five-year interval, is for only those classified as managers. Those managers would attend just two more classes every 15 years under the proposed rule; all others are unaffected. The additional training costs, therefore, are minimal and spread out over several years."

RESPONSE: It is agreed that the cost associated with managers attending training every three (3) years versus every five (5) years will not be as significant as those employees that have been required and will continue to be required to attend training every three (3) years. There are however a significant number of businesses that hire additional and replacement employees each year, a significant number of new businesses and some existing businesses that have attended non-conforming training programs that will be effected. Training requirements also extend beyond the propane industry into the service industry. Additionally, as employees' responsibilities change in their workplace, so will their training needs. The director has determined the initial fiscal note submitted with the proposed amendment was a reasonably accurate estimate. There are no changes to this rule.

ORDER OF RULEMAKING

By the authority vested in the director of the Department of Agriculture under section 323.020, RSMo 2000, the director amends a rule as follows:

2 CSR 90-10.020 NFPA Manual No. 54, *National Fuel Gas Code* is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on January 2, 2002 (27 MoReg 9-10). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS:

COMMENT: Bergquist, Inc. submitted comments supporting the adoption of the 1999 edition NFPA 54 and stated; "the adoption of these national standards by the Missouri Department of Agriculture is critical to the long-term health of our industry as it continues to promote increased levels of safety to the LP Gas consumers. Keeping with these guidelines will also help eliminate the uncertainty associated with the differences between the national standards and the state regulations."

COMMENT: CornerStone Propane submitted comments supporting the adoption of the 1999 edition of NFPA 54.

COMMENT: The Missouri Propane Gas Association supports the adoption of the 1999 edition of NFPA 54 and stated; "MPGA represents substantially all of the propane marketers in Missouri. As you are aware, we have advocated the adoption of the most recent editions of NFPA Pamphlets 58 and 54 for some time. We believe that by adopting these national guidelines, Missouri's propane marketers and their customers will benefit by increased safety and convenience. This will also bridge the gap between national standards and state regulations which has caused some confusion. The adoption of NFPA 54, 1999 edition, clarifies the procedures for interruption of several issues. This is a welcome adoption."

RESPONSE: There are no changes being made to this rule.

**Title 2—DEPARTMENT OF AGRICULTURE
Division 90—Weights and Measures
Chapter 10—Liquefied Petroleum Gases****ORDER OF RULEMAKING**

By the authority vested in the director of the Department of Agriculture under section 323.020, RSMo 2000, the director amends a rule as follows:

2 CSR 90-10.040 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on January 2, 2002 (27 MoReg 11-13). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Division of Weights and Measures received four comments on the proposed rule.

COMMENT: Bergquist, Inc. submitted comments supporting the adoption of the 2001 edition NFPA 58 and stated; "it is my opinion there are two key provisions of the most recent NFPA editions which will significantly benefit the safety of LP Gas consumers, the first is section 2.3.1.5 of the 2001 edition of NFPA 58. This overfill protection guideline promotes valve technology which helps to address the single most pressing issue in our industry today, that of overfilled cylinders. The second key provision is section 4.2 of the 1999 *National Fuel Gas Code*. This guideline clarifies the necessity of performing a leak test after an interruption of service and the correct procedures for providing this leak and pressure testing."

COMMENT: CornerStone Propane submitted comments supporting the adoption of the 2001 edition of NFPA 58.

COMMENT: Suburban Propane submitted comments stating; "Suburban Propane is in favor of adoption of the 2001 NFPA 58. As a company we have already adopted the use of most recent release of the 2001 NFPA 58. By further adopting this as a standard in the state of Missouri we continue to raise the standard of excellence in training and safety. In addition to raising the standard throughout the state, we believe by adopting the proposed 2001 edition of NFPA 58 will also simplify the codes for everyone. Having one standard will allow builders, marketers and regulators to all be on the same page with the national level. Although the cost of adoption of the NFPA 58 will be substantial, we believe it would fall short of current projections. Already we have seen a large amount of the OPD valves replaced in the state, as many marketers have already accepted this as a general requirement."

RESPONSE: There is no accurate way of determining the total number of cylinders in the state that do not have OPDs installed in them. The fiscal note in this section was based on numbers of cylinders obtained from a cylinder manufacturer. We do believe there are a very large number of cylinders that are being used by consumers today that do not have OPDs in them. Many of the cylinders requiring OPDs are filled on such an infrequent basis they would not normally be accounted for but nevertheless be required to have an OPD.

COMMENT: The Missouri Propane Gas Association commented; "MPGA represents substantially all of the propane marketers in Missouri. As you are aware, we have advocated the adoption of the most recent editions of NFPA Pamphlets 58 and 54 for some time. We believe that by adopting these national guidelines, Missouri's propane marketers and their customers will benefit by increased safety and convenience. This will also bridge the gap between national standards and state regulations which has caused some confusion."

"It is our understanding that the department's intent in 2 CSR 90-10.040(8) is to allow a propane marketer to conduct his or her own Fire Safety Analysis to satisfy pamphlet 58 section 3.10.2.2. The supplemental language of the proposed amendment was necessary due to misinterpretation of this section in other states. (The Fire Safety Analysis of engineered plants would still be performed by a professional engineer.) The accompanying fiscal note, however, assumes that all such inspections must be done by professional engineers. This results in an estimated cost to the public and private entities of nearly \$11.4 million. Clearly, the Department's language in this section seeks to avoid this expense for non-engineered plants. We believe that the language is clear as to the intent and the fiscal note is in error."

"The fiscal note for bringing internal tank valves into compliance with the new guidelines seems to overestimate the actual cost and scope. We believe that most retrofits would cost no more than \$2,000, half the cost used in the fiscal note, and many existing installations are already fitted with appropriate internal valving. Those not so fitted have until July 1, 2011, to comply. Given this timeline, and the smaller number of deficient installations, the actual cost of compliance is a fraction of the original fiscal note."

"The most far reaching change in this rule, however, is the adoption of NFPA's Overfill Protection Device requirement. The confusion over to "OPD or not to OPD" is solved by this adoption. The industry is prepared to commit funds for public awareness campaigns or provide other information about this safety device."

"The fiscal notes estimate at more than \$5 million dollars is certainly more than the actual cost of retrofits. OPDs have been sold for many years in Missouri, and the growing exchange-rack business has seen this provision on the horizon since 1998. Your estimate of \$22.95 per conversion is about the same cost as a new cylinder altogether. Our survey shows that dealer cost for these retrofits is closer to \$15.00. Further, some non-complying

cylinders are either not qualified for service for other reasons (dents, bad foot ring or collar, exposure to fire, etc.) or are exempt from the requirement under NFPA 58 section 2.3.2.5 Exceptions 1 and 2. The OPD cost is moot in these cases.

"The bottom line is that MPGA supports the adoption of the 2001 edition of NFPA 58 and the 1999 edition of NFPA 54, together with the language contained in the department's original proposed amendment. We do not believe that the costs presented in the accompanying fiscal notes, however, reflect the probable cost to public agencies, private companies or to the public."

RESPONSE AND EXPLANATION OF CHANGE: The Missouri Attorney General's Office was consulted regarding the fire safety analysis language contained in the proposed rule. The attorney general's office stated that the language in the rule is ambiguous and may not circumvent the need for a registered professional engineer to conduct the fire safety analysis. The National Fire Protection Association (NFPA) was also contacted regarding the intent of the language in NFPA 58 for conducting a fire safety analysis. The NFPA stated; "Regarding the fire safety analysis required in NFPA 58, 3.10.2.2, it is not the intent of NFPA 58 to specify who does the analysis, i.e. a propane company, consultant, engineer, or fire department. The Code only requires that the analysis be done. Historically, the analysis had to be acceptable to both the installer or owner and the enforcing authority. It has never been the intent of NFPA 58 to require that the analysis to be done only by an engineer."

Because of the additional information obtained from the National Fire Protection Association and the Missouri Attorney General's Office regarding the Fire Safety Analysis requirement, the language in this rule is being amended that will state; "Except for an engineered facility, the fire analysis may be prepared by the owner of the facility in cooperation with the local fire department and/or Fire Marshal." A revised fiscal note has been completed and filed with this order of rulemaking.

A meeting was held with all of the Division of Weights and Measures LP Gas inspection staff to discuss the internal valve requirement contained in NFPA 58 and the fiscal impact to public and private entities. It was agreed that many of the large storage tanks that are subject to this requirement are not routinely inspected, consequently, the number of these tanks meeting/not meeting this requirement are unknown. After a review of the known tanks that are routinely inspected by the division's LP Gas inspection staff, it was decided that approximately 85% do meet the requirements or allowable exceptions. A revised fiscal note has been completed and filed with this order of rulemaking.

With regard to OPD's; there is no accurate way of determining the total number of cylinders in the state that do not have OPD's installed in them. The fiscal note in this section was based on numbers of cylinders obtained from a cylinder manufacturer. We do believe there are a very large number of cylinders that are being used by consumers today that do not have OPD's in them. Many of the cylinders requiring OPD's are filled on such an infrequent basis they would not normally be accounted for but nevertheless be required to have an OPD. No change is being made to this section.

The section with changes is printed now:

2 CSR 90-10.040 NFPA Manual No. 58, Storage and Handling of Liquefied Petroleum Gases

(8) The written Fire Safety Analysis, required by the 2001 edition of the National Fire Protection Association's Pamphlet 58, *Liquefied Petroleum Gas Code*, section 3.10.2.2 shall be prepared by a person approved by the Department of Agriculture's Division of Weights and Measures, who has relevant experience and is knowledgeable of the practices of the LP gas industry. Except for an engineered facility, the Fire Safety Analysis may be prepared by the owner of the facility in cooperation with the local fire department and/or Fire Marshal. The Fire Safety Analysis for an engi-

neered facility, such as one that incorporates refrigerated storage, automated fuel standby (either industrial or utility) or pipeline terminals, shall be prepared, stamped and signed by a professional engineer who has relevant experience in LP gas or fire protection.

REVISED PUBLIC COST: The cost to state agencies and political subdivisions is estimated at \$388,500 versus the \$3,765,300 that was submitted in the original estimate.

REVISED PRIVATE COST: The cost to private entities is estimated at \$6,284,600 versus the \$19,498,816 that was submitted in the original estimate.

ORDER OF RULEMAKING

By the authority vested in the Missouri State Board of Accountancy under section 326.271, RSMo Supp. 2001, the board amends a rule as follows:

4 CSR 10-2.160 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on December 17, 2001 (26 MoReg 2353). The section with changes to the proposed amendment is reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS AND EXPLANATION OF CHANGE: No written comments were received, however, the board met with representatives of the Missouri Society of Certified Public Accountants and based on those discussions felt the following changes clarified the original intent of the board.

(1)(B) is changed from "license fee" to "wall hanging fee" to avoid confusion, because the ornamental document is not a license.

New (1)(C) is changed to consolidate the different types of firm licenses into one line. Language that was no longer relevant was eliminated. These changes did not change any fee amounts.

(1)(G) is changed to (1)(D). Language that is no longer relevant was eliminated. The original (1)(D) and (1)(E) were eliminated by the consolidation in new (1)(C). (1)(D)2. sets the amount of a biennial (2-year) initial license at \$100.00. This is no net change in the license fee of \$50.00 per year.

(1)(F) is changed to (1)(E). Language that is no longer relevant was eliminated. (1)(E)2. sets the amount of a biennial (2 year) renewal license at \$100.00 This is no net change in the license fee of \$50.00 per year.

New (1)(F) sets the fee for a replacement license or permit at \$10.00. This is that cost now charged based on old rules (1)(M) and (1)(N).

New (1)(G) sets out the delinquency fees for failure to timely renew a license or permit. This is a consolidation and does not change the fee amounts.

(1)(I) is changed to (1)(H) due to the elimination and consolidation of language. The "one year" was added for clarification. There is no change in fee amounts.

(1)(J) is changed to (1)(I) due to the elimination and consolidation of language. No fees change.

ORDER OF RULEMAKING

15 CSR 30-54.190 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 3, 2001 (26 MoReg 2304). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The commissioner of securities received two comments on the proposed rule.

COMMENT: Mark J. Hanson with the law firm of Lindquist & Vennum P.L.L.P. requested that section (2)(D)5. be modified to require the filing of a "description of business operations," but not quantity of information typically understood that might be included in a "business plan," including financial forecasts.

RESPONSE AND EXPLANATION OF CHANGE: Section (2)(D)5. will be changed to clarify the requirement that a description of business operations be filed.

COMMENT: Mark J. Hanson with the law firm of Lindquist & Vennum P.L.L.P. requested that section (2)(E) be modified inserting the phrase "in Missouri" to remove some confusion about the referenced documentation.

RESPONSE AND EXPLANATION OF CHANGE: Section (2)(E) will be changed to clarify the requirement.

COMMENT: Samuel T. Kluck with the Securities Division noted that under section (2)(D), a paragraph 8. should be included in the prospectus entitled "summary of capitalization." This additional section in the prospectus would be important for potential investors, so that investors could know how much capital has been raised so far and how much capital has been contributed by existing members or promoters.

RESPONSE AND EXPLANATION OF CHANGE: A paragraph 8. "A summary of capitalization" will be added.

COMMENT: Samuel T. Kluck with the Securities Division noted that under section (2)(D)8., the financial statements paragraph should be renumbered to 9., and add the language "If the balance sheet in the above financial statements is more than 120 days old on the date of making the notice filing or if the issuer has not completed its first financial year, an interim balance sheet not more than 120 days old shall be included and in conformity with generally accepted accounting principles."

RESPONSE AND EXPLANATION OF CHANGE: The financial statements paragraph will be renumbered to 9. The additional language is necessary for clarification. Also, investors may find it

important to have an up-to-date balance sheet when making an investment decision.

COMMENT: Samuel T. Kluck with the Securities Division noted that a paragraph (E) should be added that includes "a copy of the bylaws, operating agreement or similar document."

RESPONSE AND EXPLANATION OF CHANGE: Paragraph (E) will be added. This information is important for the Division in determining whether the applicant making the notice filing meets the definition of an agricultural cooperative association under the Missouri Securities Act.

Title 20—DEPARTMENT OF INSURANCE Division 200—Financial Examination Chapter 11—Control and Management of Insurance Companies

ORDER OF RULEMAKING

By the authority vested in the director of the Department of Insurance under section 374.045, RSMo 2000, the director adopts a rule as follows:

20 CSR 200-11.130 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on January 16, 2002 (27 MoReg 163-164). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed rule was held on February 20, 2002, and the public comment period ended February 20, 2002. At the public hearing the Department of Insurance explained the proposed rule and six (6) comments were received.

COMMENT: Transactions between an insurer and its subsidiary should be exempt from the requirements of this proposed regulation.

RESPONSE: The Department disagrees with this comment. Once a registered insurer concludes a material transaction with a subsidiary, the subsequent use by the subsidiary of the proceeds is not subject to the Department's prior review. Because the subsequent use by the subsidiary of the transaction's proceeds would not be subject to further Department review, the Department should review the transaction in the same manner that it reviews other transactions between an insurer and any other affiliate, namely independent of how the consideration paid to the affiliate might (or might not) indirectly affect the financial condition of the insurer. Accordingly, the Department will not exempt material transactions between a registered insurer and its subsidiary.

COMMENT: Another means for approval of affiliate transactions should be added to permit a registered insurer to obtain the approval of its policyholders for the subject transaction.

RESPONSE: The Department disagrees with this comment. One of the principal functions of the Department of Insurance and the insurance regulatory scheme is the protection of policyholders. Delegation of this principal function is seldom, if ever, warranted. Delegation of this principal function is particularly contraindicated in the case of a transaction between an insurer and its affiliate. Many, if not most, policyholders lack the experience, expertise and resources needed independently to evaluate a proposed material transaction between their insurance company and its affiliate.

COMMENT: A third alternative should be added under subsection (3)(A)2.B. to allow a registered insurer to demonstrate that a proposed affiliate transaction is "fair and reasonable." A new subparagraph (III) should be added that reads as follows: "Whose cost to the insurer represent a price that is substantially the same as the price currently being paid by the insurer to a non-affiliated person for substantially similar services."

RESPONSE AND EXPLANATION OF CHANGE: The Department agrees with this comment in part, but rejects the specific language suggested. The commenter points out correctly that the language of the proposed rule applies to the public in general, who may or may not be aware of the price for certain goods and services in the business of insurance. Accordingly, the references to the general public have been deleted and the references to other purchasers modified to include a requirement that such other purchaser be affiliated with neither the insurer nor the vendor. With these changes, if an insurer has been paying a commission rate for the production of life insurance to a non-affiliated producer and that commission rate is typical of what other independent insurers pay, then the department will deem fair and reasonable the insurer's payment of that same commission rate to an affiliated producer. On the other hand, if the insurer has been paying a commission rate to a non-affiliated producer that is greater than the industry standard rate because the producer provides above-standard production, payment to an affiliated vendor of that same rate will be justified only if the insurer demonstrates that the affiliated producer is likely also to provide the same above-standard production.

COMMENT: The Department should expressly grandfather all previously approved affiliate transactions.

RESPONSE: The Department disagrees with this comment. An express grandfather clause is unnecessary and might inject an unwarranted amount of confusion. Per section 382.195, RSMo, if the Department had at least thirty (30) days prior written notice of a transaction (by 20 CSR 200-11.101, this notice must be on Form D) between a domestic insurer and an affiliate and did not disapprove it within those thirty (30) days, the transaction is considered approved. Accordingly, the Department cannot employ the provisions of the insurance holding company act to force the unwinding of or to penalize the parties for any transaction that is entered into after proper notice and the lack of disapproval within the notice period.

COMMENT: The timing of the Director's review of an insurer-proposed competitive bidding process (see subsections (3)(A)2.B.(I) and (3)(B)2.A.) should be 30 days, the same as the Form D requirements.

RESPONSE: The Department disagrees with this comment. Any competitive bidding process as suggested in the rule would be considered on a case-by-case basis and would not by itself be the subject of a Form D prior notice. Only the proposed transaction between the insurer and its affiliate would be the subject of a Form D; a bidding process is not a transaction between an insurer and its affiliate, but rather a solicitation of offers from vendors which may or may not include an affiliate.

COMMENT: Once the Director approves an insurer-submitted competitive bidding process, the insurer should not have to return to the Department for another approval of the terms of the affiliate transaction under the requirements of Form D.

RESPONSE AND EXPLANATION OF CHANGE: The Department accepts this comment in substance and has changed the rule accordingly by adding subsection (C) to section (3). Once a competitive bidding process has been approved and the winning bid is an affiliate, the insurer will still submit a Form D prior notice (because the bidding process itself is not subject to Form D) with proof of the Department's approval of the bidding process. The Department will then deem the transaction fair and reasonable within the meaning of section 382.190, RSMo.

20 CSR 200-11.130 Materiality, Fairness and Reasonableness of Certain Affiliated Transactions

(3) Standards for Charges, Fees and Other Consideration:

(A) For Services.

1. The charges, fees or other consideration, paid by the registered insurer to an affiliate for a service shall not exceed the direct cost to the registered insurer. "Direct cost" means the expenses and costs to the registered insurer of directly performing substantially the same service for itself. The direct cost shall be determined by consistently applied, objectively verifiable, generally recognized, internal accounting practices.

2. If and only if the registered insurer cannot determine its direct cost, the charge or fee paid by the registered insurer to an affiliate for a service shall not exceed the cost of obtaining substantially the same service on the open market. A service is obtained on the open market where the service is obtainable from a person:

A. Who is not affiliated with the insurer; and

B. Either:

(I) Whose cost to the insurer represents the lowest and best bid for such service, such bid having been submitted in response to a request for proposal in a competitive bidding process approved by the director; or

(II) Whose cost to the insurer represents a price that is, with respect to substantially the same service, typical of the price

paid by other persons who are affiliated with neither the vendor nor the insurer.

(B) For Assets or Goods. The charges, fees or other consideration, paid by the registered insurer to an affiliate for an asset or good shall not exceed the cost of obtaining substantially the same asset or good on the open market. An asset or good is obtained on the open market where the service is obtainable from a person:

1. Who is not affiliated with the insurer; and

2. Either:

- A. Whose cost to the insurer represents the lowest and best bid for such asset or good, such bid having been submitted in response to a request for proposal in a competitive bidding process approved by the director; or

- B. Whose cost to the insurer represents a price that is, with respect to substantially the same asset or good, typical of the price paid by other persons who are affiliated with neither the vendor nor the insurer.

(C) Notwithstanding the provisions of subsections (A) and (B) of this section, a transaction between a registered insurer and its affiliates will be deemed fair and reasonable, if the transaction is the direct result of a winning bid submitted by the affiliate in a competitive bidding process that has been approved by the director.

This section may contain notice of hearings, correction notices, public information notices, rule action notices, statements of actual costs and other items required to be published in the *Missouri Register* by law.
